SUMMARY

Passionate front-end developer skilled in JavaScript, React, and modern web technologies. Experienced in building AI-powered applications and user-friendly web solutions. Focused on scalable, high-quality code and innovative development.

PROJECT'S

1 Genie AI-Powered Chat Assistant **|** [GitHub Link](#)

- Genie AI is an interactive AI Chatbot built using React(frontend) and Nodejs(backend) that allows user to ask any question and provide intelligent response.
- Powered by Open AI's API.

2 **An Efficient Spam Detection Technique for IoT Devices (Master Thesis)**

- Developed a solution to protect IoT devices from producing malicious information by detecting web spam.
- Implemented various machine learning algorithms and displayed results on a website.

3 **Little Lemon Restaurant Website|** [Project Link](#)

- Developed an engaging and user-friendly website for Little Lemon, reflecting its unique ambiance and offerings.
- Served as a platform for customers to explore the menu, make reservations, and learn about the restaurant's story and values.

4 **Personal Portfolio**

- Built a personal portfolio using HTML, CSS, and JavaScript.
- Integrated modern UI frameworks like React.js to enhance user experience.
